

An introduction to
sowerby

The Sowerby Group is a full service advertising, creative design, marketing and digital communications agency. Based on the Essex/Herts borders we offer national and international exposure for clients operating in a range of industry sectors.

We've been established for a long time, since 1992 in fact and we love to impart our knowledge and our passion for marketing and branding. Our aim is always to build long-lasting relationships with our clients, our suppliers and our media partners.

We are proud of our successful, award-winning agency and we love nothing more than working with clients and helping them to communicate their own success story, their vision and their key service offering.

Come on in and take a peek to find out more....

Sue Sowerby

You get so much more at Sowerby...

CREATIVE DESIGN AND MARKETING

Brochures, reports, exhibition stands, internal documents, case studies, presentations and more.

BRAND IDENTITY

From research and generation of a company name to a full logo/tagline and design of brand guidelines.

DIGITAL MARKETING

Design & build of websites, online marketing, SEO, social media campaigns and more.

ADVERTISING

Media buying, planning, negotiation, copywriting and response handling.

SEARCH & FIND RECRUITMENT

Why pay expensive agencies to find your staff when we offer this very popular service to a whole range of clients at a fraction of the cost?

Now for the creative work...

About Us

Testimonials

We are Carriera Executive Search

Carriera provides specialist, innovative and focused recruitment solutions for clients and individuals throughout the UK and globally. We connect the best professionals with top employers across the construction, property and financial services industries.

Our consultants are true sector specialists with a deep understanding of the industry and markets we work within. Our extensive network and search methodologies enable us to make the right connections for you in a timely and efficient manner.

Carriera was established to provide an executive recruitment solution. The majority of our mandates are on a retained basis, where we offer head-hunting or search and selection services. We also offer contingency recruitment services, where we typically work on an exclusive basis to seek and secure the best professionals in the market.

Our senior consultants and management team have significant industry experience. Much of this experience is derived from long-standing relationships with clients and candidates which have been grown from, and nurtured, on the principles of absolute care and added value. By having a close working relationship with our clients and candidates we achieve the best results and make a real, quantifiable, difference to our clients' businesses and our candidates' careers.

elliott@carriera.co.uk

Elliot heads the construction and property service line for Carriera and focuses on senior to executive level appointments. He has worked within the recruitment industry for over 20 years, specialising in construction and property in 1998. Since 2002, Elliot has dedicated himself to the client and consultancy sectors and has managed large recruitment teams focused on the design, engineering and management of the built environment.

Having established the consultancy services for a major global recruitment business, he launched Carriera in 2013 to follow his aspirations of building a recruitment and search business that is focused on the professional services industry. His dedication and care to client satisfaction is shown by the level of exclusivity Elliot secures from his clients.

Elliot has established service lines within:

- Building surveying
- Cost management (quantity surveying)
- Project and development management
- Asset and property management
- General practice

His search methodologies are detailed and precise, utilising varying mediums, an extensive database and a strong network. Each of these enable him to satisfy assignments in a timely manner meeting all parameters.

VISIONPATH™

IMPERIAL ENGINEERING

Imperial Engineering has been supplying the bus and coach industry with premium quality parts and engineering expertise for over 50 years. We apply our knowledge, experience and overriding respect for the customer to the rigorous demands of the industry's current commercial needs. Whether you are a small independent operator or a major national company, we can provide you with professional service, product availability, reliable delivery and engineering excellence to keep your business moving.

COMMITMENT TO QUALITY

We have hand-picked a portfolio of products to enable us to focus and specialise on our range. This has enabled us to work with the highest quality suppliers who are well established and highly respected. We know how important reliability and safety are in the industry, and our customers know they are in safe hands with us!

IMPRESS STOCK

We have hand-picked a portfolio of products to enable us to focus and specialise on our range. This has enabled us to work with the highest quality suppliers who are well established and highly respected. We know how important reliability and safety are in the industry, and our customers know they are in safe hands with us!

DEDICATED SALES OFFICE

When you call Imperial Engineering you will always speak to an experienced member of staff who understands your business needs. No answering services, no subordinates! Your call comes directly through to a member of our Sales Team and your order is taken and processed immediately.

AFTERSALES SERVICE

The service you receive from Imperial Engineering doesn't end when your product is delivered. Our team is here to help you with any technical, planning, logistical and billing queries, and we value your feedback. We believe our customers deserve the very best service and support.

EXTENSIVE STOCK AVAILABILITY

We understand that a vehicle off the road is costly and affects garage performance statistics, therefore we operate an extensively stocked warehouse, so that we can meet your demand in a timely fashion and without costly workshop delays caused by waiting for part deliveries.

COMPETITIVE PRICING

Fundamental to your business is your bottom line. Imperial Engineering recognises this and states it our priority to provide you with the highest quality products at the most competitive prices. We believe you don't have to compromise on either quality or price.

TRAINING

Your staff can be your greatest asset, and Imperial Engineering can help you invest in them. We can arrange practical and technical training with Original Equipment Manufacturers (OEMs) in caliper maintenance, disc or brake systems through to the latest advancements in diagnostics. These courses can be tailored to your needs so whether you need training as a refresher or to keep staff up to date with new technology then we can help!

WARRANTY TEST STATION

If you experience any problems with your Imperial Engineering products warranty claims are dealt with quickly and tracked closely. All units are returned to the OE Manufacturer for inspection. However, we are also an accredited test centre for Knorr-Bremse and Wabco. Should a customer wish to observe any item on test we have the facilities to cater for this.

UK-WIDE SERVICE

Wherever you are in the UK, Imperial Engineering can get the part you need, when you need it delivered out the next day! We have dedicated account managers in the North and South who can offer the very best levels of customer support.

IE FLEET DELIVERY

To offer the highest standards of customer care Imperial Engineering operate a fleet of their own vans which can make deliveries to you, next day or on a regular schedule as well as collect your old cars at the point of delivery to ensure old units do not build up in your garage.

CALIPER SERVICING CENTRE

Imperial Engineering has been offering off the shelf serviced calipers for over 10 years. Our skilled engineers have been trained by both Knorr-Bremse and Wabco specifically for this service and we only use genuine OE kits. This means that our customers can enjoy a service-exchange caliper off the shelf with genuine OE kits and a full year's warranty at a fraction of the price of a brand new one. Just call our sales office for enquiries about the full range.

AID TO STOCK ROTATION

To help you operate a first-in-first-out system of stock management, all products from Imperial Engineering carry a colour coded sticker relating to the year in which it was sold, in addition to aiding stockkeepers in their stock rotation, it is also a great indicator of non-moving impress stock.

BRAKING SYSTEMS

Imperial Engineering is the primary independent specialist air braking supplier to the bus and coach industry in the UK. We are an authorised distributor for the three main Original Equipment manufacturers of air braking products for the bus and coach industry: Knorr-Bremse, Wabco, Haldex. We only supply brand new, genuine OE units, leaving our customers safe in the knowledge that, on this safety critical product range, they are fitting the highest quality parts to their vehicles.

Some of the most commonly used braking system parts we supply are:

- Compressors
- Air Dryers
- Sprung Brakes
- Brake Chambers
- Valves (Brake Multi Circuit, Levelling, Quick Release)
- AES and ESP Valves (ECU), Solenoid, Sinter, Control Modules
- Air Tanks
- Shock Absorbers

WATER PUMPS

We can supply a full range of brand new OE or high quality remanufactured water pumps to OE specification. Our range covers all vehicle manufacturers and models and we are able to cross reference your part number to supply the correct unit. Our brand new units are imported from the OEMs throughout Europe and offer the highest levels of performance and reliability. This product carries a one-year warranty and is a service exchange item.

STEERING

We are the largest distributor of Power Steering Services' (PSS) steering components to the bus and coach industry. PSS has forged a reputation as a reliable source of remanufactured steering items such as tandem pumps, fan motors and steering boxes. All remanufactured units are produced to the OE specification and offer significant cost savings.

In addition to the remanufactured units, we are able to offer a range of brand new OE units on many tandem and fan pumps at very competitive prices.

FRICITION

All new vehicles are produced three main friction braking products, comprising of the caliper, brake disc and brake pad set. Imperial recommend that Original Equipment products are fitted in accordance with vehicle manufacturers' specifications. We are Authorised Distributors for Knorr-Bremse, Meritor and Wabco who are the three primary OEMs when it comes to friction.

In addition to these products we also supply the following OE Products:

- Caliper Kits
- Wear Indicator Kits
- Caliper Tool Kits

It is important to use the correct fittings for each vehicle in order to optimise the performance of the braking system as well as guaranteeing maximum safety. However, we can also supply a range of alternative aftermarket products.

Knorr-Bremse calipers carry a two-year warranty. All other products in this range carry a one-year warranty.

IN-HOUSE

Here at Imperial Engineering, we have specialised in machining, welding, fabrication and engineering of PSV and commercial vehicle components for over 50 years. Our reputation has been developed by employing traditional engineering skills and techniques and consulting closely with our customers to meet their desired repair and quality standards at affordable prices.

We take pride in the personal nature of our service. Our technical support engineers are able to deal with specific problems or enquiries, concerning the safety critical standard of repair that can be undertaken.

Our time-served engineering team can undertake a wide range of work, including repairs of front ends, axle coatings, front and rear hubs. Our specialist welding includes aluminium, cast and steel. Please contact us to discuss your requirements fully.

TURBOCHARGERS

We are an authorised distributor for ITH Turbo who has forged a reputation as a reliable and competitive supplier of turbochargers to the bus industry. We can supply a full range of brand new OE or remanufactured turbochargers built to the OE specification from Danfoss, Mitsubishi, Holset, BorgWarner, IHI and Schaeffler. All turbochargers come with a free fitting kit.

This is a service-exchange item and each unit carries a one-year warranty.

PROPSHAFTS

We carry a comprehensive range of genuine manufacturers' parts, including brand new propshafts and universal joints, and are an Approved Distributor for Dana Spicer Driveshafts UK and GKN Driveline.

We are also able to carry out a standard repair to propshafts by replacing the universal joints and checking that all the cones are intact.

This group of products carries a one year warranty and is supplied on a service-exchange basis.

ROUTEMASTER

Imperial Engineering has long been associated with the famous Routemaster bus which remains a British icon and is recognised throughout the world. We work closely with the Routemaster Association to ensure there is an availability and reliability of parts. We are still able to remanufacture a number of our parts at our engineering facility using our team of experienced engineers.

Many of these parts are remanufactured but we have recently worked with the Routemaster Association and OEMs to reproduce parts which had been short in supply. Please get in touch if you require assistance or advice.

WARRANTY CLAIMS PROCEDURE

- Fill in all sections of the Imperial Engineering Warranty Claim Form. Attach to the warranty form.
- Package the product securely for return to Imperial. F&O Warranty Returns Department. Note: do not mix warranty and core returns together, they are processed by separate departments. Failure to comply may lead to loss of your warranty claim. They may be delivered together as long as they are packaged as separate consignments.
- Arrange for collection by Imperial.
- Imperial will forward on your claim to the relevant OE Manufacturer who will examine your warranty claim to verify the complaint.
- If the OE Manufacturer agrees with your claim, your account will be credited or a replacement supplied. Imperial will always select you a Warranty Claim report.
- If you have any queries or problems relating to warranty claims please call 01992 634255.

TESTIMONIALS

'Metroline has a long standing relationship with Imperial Engineering over many years, and as our business has grown so has the service we require from our suppliers. Imperial offer a first class product at a competitive price, and provide excellent warranty and training as required. The team work hard to ensure we get parts when we need them, and offer all the backup we would expect. They are an old business that has moved with the times, but still provides that extra something above their competitors'
